Talking with Karen sounds like a good plan!

Hi Samantha,

Sorry I'm slow getting back to you on this one. Perhaps rather than just reviewing the document, I might discuss matters here with Karen Hogan and see if there is something that I might feel important to comment on. I will try to get some understanding of issues.

Best,
Paul

Subject: Benzo[a]pyrene...

I was reluctant to send this email considering I have been asking you to review IRIS assessments, at this point, on a routine basis! 😊

However, I just received some of the BaP proposed issues for discussion by the NCEA Executive Review Committee and I wanted to see if you wanted to weigh in on these? I am expecting the draft assessment around August 10th or so. We'd have about 2 weeks for the ERC review. Let me know what you think about looking at these issues (see brief summary below) a little closer and providing your thoughts...
